

Statement 04-ID-10

Support for "Guiding Principles for HIV Prevention". This statement was proposed to us by NASTAD and ASTHO staff. I have seen no formal responses, but it was not directed to a specific agency for response. We have seen much more discussion of these issues of politicalization of HIV prevention decisions in the past 6 months, including of course a statement on this subject from a influential member of the US House of Representatives, Congressman Waxman.

James Jerry Gibson, MD, MPH  
State Epidemiologist and Director, Bureau of Disease Control South Carolina Department of  
Health and Environmental Control
