

2009 CSTE Annual Conference Exhibitors

24

Agency for Health Research and Quality

AHRQ's Healthcare Cost and Utilization Project (HCUP) is a family of healthcare databases and products developed through a Federal-State-Industry partnership, creating a powerful source of hospital discharge data and related resources. HCUP includes the largest collection of multi-year hospital care data in the U.S., with all-payer, encounter-level information from 1988.

14

Association of Public Health Laboratories

The Association of Public Health Laboratories is a professional association that represents its members on issues of public health laboratory importance. APHL promotes the role of public health laboratories in support of national and global health objectives and promotes policies and programs which assure improvements in the quality of laboratory practice.

11

CDC, Behavioral Risk Factor Surveillance System

The Behavioral Risk Factor Surveillance System (BRFSS) is the world's largest, on-going telephone health survey system, tracking health conditions and risk behaviors in the United States yearly since 1984. BRFSS is a state-based system of health surveys-for many states, the BRFSS is the only available source of timely, accurate data on health-related behaviors.

19

CDC, Epidemic Information Exchange

Epi-X is CDC's secure, web-based communications and alerting system that keeps frontline public health officials informed about developing health threats. The system rapidly establishes secure communication channels between its users, providing a safe way to exchange confidential information. Epi-X helps public health officials stay informed, inform others, and share expertise.

5

Centers for Disease Control and Prevention

The Centers for Disease Control and Prevention, Radiation Studies Branch, is pleased to announce a brand new radiation emergency public Health tool kit for Public Health Officials. Please stop by booth 5 to sign up and receive a free kit. For more information e-mail cdcinfo@cdc.gov.

6

Centers for Disease Control and Prevention

CDC's mission is to create the expertise, information and tools that people and communities need to protect their health-through health promotion, prevention of disease, injury and disability, and preparedness for new health threats. The CDC has approximately 10,000 employees in eleven U.S. locations and 54 countries.

15

Centers for Public Health Preparedness

The CDC-funded Centers for Public Health Preparedness (CPHP) are a national network of academic institutions working in collaboration with state and local public health departments and other community partners to provide life-long learning opportunities to the public health workforce, in order to handle the next public health crisis.

20 and 21

Consilience Software

Consilience Software provides communicable disease surveillance and outbreak management (all diseases including TB, STD's, and HIV), birth defect and newborn hearing/genetic/behavioral/screening and management, and immunization registry software solutions. Consilience Software also provides environmental health tracking, hospital syndromic surveillance, electronic medical record and master person index software solutions.

2009 CSTE Annual Conference Exhibitors

18

Council of State and Territorial Epidemiologists

An update and review of CSTE programmatic activities, including National Office, Chronic Disease, Infectious disease, Occupational Health, Environmental Health, Food Safety and Injury will be presented.

17

DiagnosisONE, Inc.

DiagnosisOne provides very advanced, highly scaleable and configurable Electronic Laboratory Reporting, Disease Surveillance and Decision Support Systems. These systems enable the collection and automatic analysis of clinical data from 1000's of sources. Our customers include the Centers for Disease Control, the Massachusetts Department of Public Health and Partners Healthcare.

9

Emory Center for Public Health Preparedness

The Emory Center for Public Health Preparedness, Rollins School of Public Health, Emory University, is part of the national system of Centers for Public Health Preparedness funded by CDC. The Emory CPHP specializes in the development of technology-enhanced instructional activities including instructional lectures, interactive trainings, web-based case studies, and conference proceedings.

7

Food Irradiation Processing Alliance- c/o Beef Council

FIPA supports the food industry in the selective adoption of food irradiation by means of Electron beam, Gamma, and X-ray, in an environmentally safe manner as a means to improve food safety and quality in terms of pathogen reductions, as a quarantine treatment, and for product shelf life extension.

13

Health Monitoring Systems

Health Monitoring Systems collects and analyzes health-related data in real time via a Software-as-a-Service model. Our EpiCenter service increases our clients' understanding of regional health conditions, improves the quality and efficiency of their operations, and provides them with more effective ways of collaborating with other health-related agencies.

22

Michigan Center for Public Health Preparedness

The Michigan Center for Public Health Preparedness, part of the Office Public Health Practice, University of Michigan School of Public Health, supports preparedness efforts of local and state health departments. Training products, onsite and online, are competency-based and targeted to the public health workforce. Funded by the CDC.

10

New York State Department of Health-Division of Epidemiology

New York State Department of Health-Promoting Healthier Lives for All New Yorkers. Demonstrations of new surveillance and data collection tools, samples of surveillance reports, literature on major public health initiatives, an array of health education materials.

23

North Carolina Center for Public Health Preparedness

NCCPHP is dedicated to improving the capacity of public health agencies and their staff through research, educational programs and technical assistance. We respond to partner-identified needs and use our expertise to improve public health programs and systems.

2009 CSTE Annual Conference Exhibitors

8

Onto Reason, LLC

The exhibit will demonstrate the Orion-OntoReason Public Health Integrator with case reporting module based upon the CSTE 2009 position statement Informatics section. This product offering will be deployable at hospitals and labs.

12

Sanofi Pasteur

Sanofi Pasteur, Inc., the vaccines division of Sanofi Aventis Group, provides pediatric, adult, and travel vaccines for diseases such as diphtheria, tetanus, pertussis, polio, Haemophilus influenzae type b, influenza, rabies, Japanese encephalitis, typhoid fever, yellow fever, and meningococcal disease. To learn more about our products, visit our exhibit booth.

16

UNC Gillings School of Global Public Health

The North Carolina Institute for Public Health is the outreach arm of the Gillings School of Global Public Health at the University of North Carolina at Chapel Hill. The Institute houses a variety of training programs for public health professionals, both for academic and continuing education credit. The certificate in Field Epidemiology is represented at this booth.
